DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert G. Hartman on May 1, 2007.

The application has been amended as follows:

In claim 1, line 26, after the word query -- wherein the processor generates a packet according to the input command and transmits the packet to the first transmitter via the network, and wherein the packet comprises an identification address of the receiver.— has been included.

In claim 10, line 13, after the word information --- wherein the processor generates a packet according to the input command and transmits the packet to the first transmitter via the network, and wherein the packet comprises an identification address of the receiver.—has been included.

In claim 19, line 10, after the word receiver--- wherein the processor generates a packet according to the input command and transmits the packet to the first transmitter via the network, and wherein the packet comprises an identification address of the receiver.--- has been included.

Claims 8-9 have been deleted.

The following is an examiner's statement of reasons for allowance: the prior art of record Noreen does not teach or suggest wherein the processor generates a packet according to the input command and transmits the packet to the first transmitter via the network, and wherein the packet comprises an identification address of the receiver. These limitation, in conjunction with all other limitations, has not been disclosed , taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
